

# Upmatic® 1001E

englisch

**Upmatic Typ 1001E = elektronische single weighing machine for fine and coarse products in the food and non-food-industries. The weighing range covers all weight classes between 0,5 and 5,0 kgs – weighing without losses.**

Die Upmatic 1001E convinces by offering both precision and easy operation service.

A feed belt conveys the product to the vibrating plate before it moves via the conveying channels directly into the weighing buckets.

The exact weight is determined by a weighing cell with a measuring amplifier.

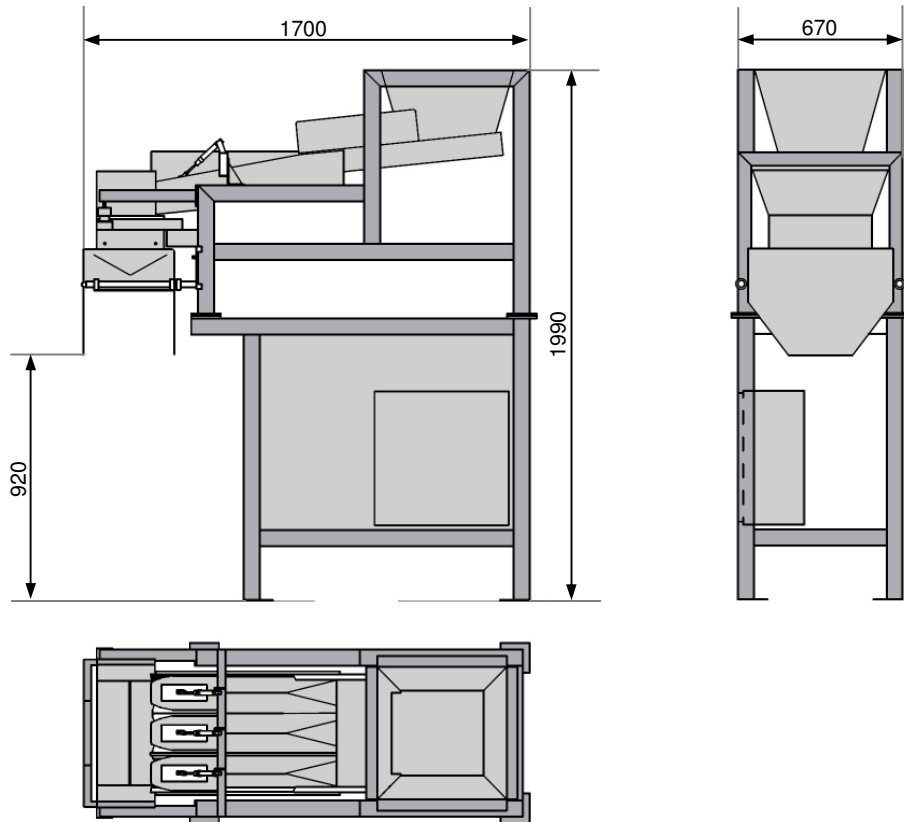

The control system of the machine is carried out by a high-output compact-PLC, integrated with an operating panel and a text display.

The Upmatic 1001E is very compact and operates extremely reliable and very small weighing tolerances.

A genuinely all-purpose weighing system, the Upmatic 1001 E is suitable for almost any small or large food or non-food items, such as onions, potatoes, nuts, carrots, Brussels sprouts, sweets, or deep-frozen products.

Different programs tailored to specific products enable the machine to be run at high speed while still remaining easy to operate.

# Upmatic® 1001E

The Upmatic 1001 E can be combined with all current filling and sealing machines. Upmann provides also adequate feeding belts and and processing packaging machinery.

The measurements may change according to individual combination with filling and closing machines.

In the interest of our customers, we reserve the right to introduce technical changes.

## Technical dates:

- Weighing range: 0,5 kg – 5,0 kg
- Capacity:  
Packages of 1,0 kg approx. 20 bags/min
- Voltage supply: 30/400 V, 50 Hz
- Powerconsumption: 1,0 kW
- Air pressure: 6 bar
- Air consumption: 0,8 l / cycle

## Type of machine:

**Upmatic 1001E:** completely in stainless steel.  
See illustration and explanatory text.

**Upmatic 1001:** Standard model painted steel  
hammer dimple blue - silver.

## Accessoires:

- Feeding belts in individual sizes
- Full indicator
- chutes
- collecting belts
- service platforms
