---

*SongWriters Voices* is sonorous, colorful and highly playable sounds that are especially suited for songwriting in music genres of rock, R & B, folk, pop, jazz, new age and film music.

The sounds are created in series, so that different versions of a sound may lie in the same or several soundsets. Some of the voices are modifications of Motif preset voices, and others are more unique voices.

### About the creator of the sounds

My name is Per Skovgaard, I live in Denmark and since 1976 I've had a passion for creating new sounds and soundscapes on a synthesizer - funky, rocking, expressive and always evocative voices, which I myself think is a dream to play on.

When I create voices, I always do it in series. Instead of just picking one sound from each series, I have chosen to give you all the best sounds from the series.

Much energy and many hundred hours of effort are put into creating the *Songwriters Voices* soundset, so I hope it will be useful and inspiring for you. Enjoy using the voices!
