# DIALOGUE PANEL SESSION

## MODERATOR: HANS HENRIK HOLM

**AFFILIATION:** Danish School of Media and Journalism

**TITLE:** Intercultural Dialogue on Values: Why?

**SESSION:** Opening Session II

**TIME:** November 3, Tuesday, 16:00-17:30.

**LOCATION:** Auditorium 1, building 1441.

### ABSTRACT

The Dialogue Panel Session will engage representatives from academia, business, and civil society & policy making. The aim of the session is to present and explore challenging questions about the significance of climate change for our self-understanding as citizens and moral agents.

How do we think about climate change? Does Academia, especially the Humanities, have a special responsibility for addressing climate change? Does Business have a special role to play for environmental responsibility? Is Civil Society addressing its cross border responsibility?

Panelist will respond to the challenge of responsibility and search for answers in a dialogue format.

The Dialogue Panel Session in part 2 of the Opening Session also functions as the last in a series of nine 'dialogue meetings/dialogmøder' that have been held in Aarhus during 2009, in the course of the so-called Dialog09 program; the session is thus to create an interface between the city and the university.
